

# MAKING CHANGE

Figure out how much change each customer will get back.

Sally has:

\$1

Her drink costs:

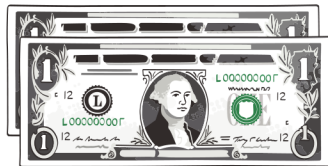

\$0.85

What will her change be?

-----

Jane has:

\$2

Her ice cream costs:

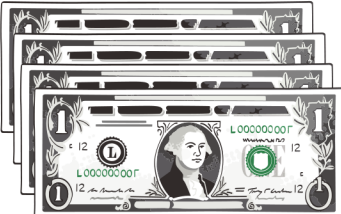

\$1.35

What will her change be?

-----

Tom has

\$4

His football costs:

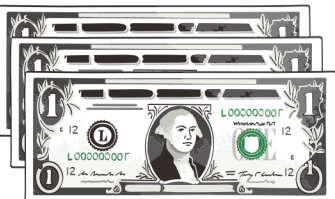

\$3.60

What will his change be?

-----

Phil has:

\$3

His baseball costs:

\$2.45

What will his change be?

-----
