

STAYING on TOPIC

1

I love chatting with my friends. We can talk about lots of cool stuff!

2

When we chat, it is polite to talk about the same things

3

When we talk about video games, I ask video games questions and listen to my friends

4

Once we're done talking about something, I can suggest a new topic, but I make sure to wait instead of suddenly changing it, which can be rude.

5

When I'm respectful, my friends will want to chat with me.
